ANOTHER EFFORT
IN PROGRESS TO
PASS TAX SLASH

Republicans Laying Plans To Satisfy Demands Of President.

BIG MAJORITY FOR
BILL IS PREDICTED

Insurgents Leader Sitting Tight In Opposition To Separation.

Washington, March 13.—A final desperate effort was in progress today among regular Republicans in the House to satisfy President Coolidge by passing a separate measure, the 25 per cent. 1924 tax reduction on income taxes for 1923.

Although Leader Longworth carried to the President information the legislation could not be put through the House before the first quarterly installment of tax payments fall due Saturday, others were busy laying plans to rush the bill through the House after it had been torn from the ways and means committee.

Chindblom, Illinois, and Hawley, Oregon, worked on Republican members of the committee trying to induce them to report out today. The Chindblom bill which is compiled from the language providing for the 25 per cent. reduction as incorporated in the general tax bill when it passed the House.

Four times previously a similar effort had been made with the Republican committee and each time it failed.

Chairman Snell of the House rules committee urged Chairman Green of the ways and means committee to swing into line and argued with Longworth to bring his influence to bear upon all Republicans.

Snell promised if the bill could be brought from the ways and means committee he would get a special rule to insure early action on it in the House. All the leaders are satisfied if the bill could be brought to a vote in the House it would pass by a big majority.

With these movements in progress, Congressman Frear, leader of the insurgents, was sitting tight in opposition to separation of the 25 per cent. reduction feature from the general tax bill.

He contends there are too many good features of the general bill to subject it to a presidential veto by withdrawing from it one of its most attractive provisions. In the position he has the support of Democratic committee.

ALHOUSE BUYS
NEW GARAGE SITE

Whinnery Sells Building On Lundy St. Occupied By Supply Co.

E. H. Alhouse, owner of the Studebaker garage, has purchased the Votaw-Whinnery building on South Lundy st. from T. R. Whinnery and others.

In the near future Mr. Alhouse intends to erect a modern garage on this lot which will be connected to his garage facing on Pershing ave. The new garage will take care of the increased business of Studebaker cars and will also provide for the larger storage garage in Columbus road.

There will be a Lundy st. entrance and a Pershing ave. entrance and display room.

The Salena Supply Co., which now occupies the Lundy st. building, has made arrangements for a future location.

BOYS WHO LEAVE
DETENTION HOME
ARE CAUGHT HERE

William Fenwick and Theodore Geisler, 15-year-old inmates of the detention home on Fifth ave., Pittsburgh, who took leave of that institution Tuesday, and came to Salem Wednesday, were captured by Salem police Wednesday night under orders from Chief Thompson after a call came in from a farmer on the Lisbon rd. stating that he recognized Fenwick as a former Salem boy who was supposed to be at the home.

The lads were being held in city jail Thursday, pending the arrival of Pittsburgh officers. They will be taken back to the institution to which they were sent some time ago.

It is understood that a hunt was being made for two days for them in the Pittsburgh district.

Low Sarett, "Poet Of The Wilderness," Presents Unique Lecture Here As Methodist Course Closes.

Despite the fact that he had spent seven years in a university, Low Sarett, "the poet of the wilderness" and a teacher, in a lecture Tuesday evening at the M. E. church told his audience that God's great outdoors had been his greatest teacher, and a doctor to him.

"I love every tree, bird and flower, everything that crawls and grows," he said.

"I have learned that only good seed grows good crops. You cannot go against any law of nature, without paying the price," Mr. Sarett stated. "If you live each day like God would have you live, this is a fine world."

Mr. Sarett, dressed in woodsman's costume, gave a unique program which was intensely interesting and judging from the generous applause given him was much enjoyed by the large audience.

His lecture was to do principally with life among the French-Canadians, Indians and in the Rockies.

TELLS HOW WISE
GIVING HELPS TO
BUILD CHARACTER

A. O. Fleming, Youngstown, Is Speaker At Kiwanis Meeting Thursday.

What the "Art of Wise Giving" is, in connection with public and private philanthropy, was told by A. O. Fleming, secretary of the Youngstown community chest, at the weekly meeting of the Kiwanis club at the Elks Thursday noon.

The speaker, basing his talk on his experiences in the work of directing the community chest in Youngstown, told how money should be expended for the needy, sick, for those who needed character building or recreation, and for other purposes in relation to the lives of those who needed funds.

"What we need is intelligent spending of money that is raised for the purpose of helping people. We must not give too much, or not enough. We must look at each case and render an opinion."

"Today what the needy want is not plenty of money, as some think, but enough with a little advice as to how to use that money. But most of all character provided and that makes it imperative that we who have charge of the funds know how to spend and where to spend the funds."

"No matter what manner of philanthropy or need the case may involve there must be an intelligent management of the case," said the speaker. "Money will do no good unless wisely spent, and especially in cases of want."

Several matters were taken up by the club previous to the talk. It was decided that a ladies' night would be arranged for Friday night, March 21, at the Elks, the plans to be announced later.

There will be a meeting of the board of directors, and the chairman of the sub-committees in charge of the tourist camp plans at 8 p. m. Tuesday at the Elks.

DIRECTOR PARKS
TOO LONG, PAYS
HIS DOLLAR FINE

Safety Director C. W. Zimmerman, whose car was tagged by police for violating the parking ordinance by parking more than an hour on a main street Tuesday appeared Thursday for a hearing in Mayor Schaefer's court and was fined \$1.

Although it had been arrested for parking too close to another car, the police order was for violation of the hour parking rule.

Zimmerman's car, like all others which was not parked according to city ordinances, was tagged Tuesday afternoon, the owner of the car, unknown to the officer, was ordered to appear before the mayor.

W. C. Bennett of Lisbon, an employee of a Salem store, paid a fine of \$1 in the mayor's court Thursday. His car was tagged March 4.

RELATES STORY
OF BIG PROFITS

Friends Of Daugherty Are Indignant Over Nature Of Testimony.

Washington, March 13.—Skeptics were rattling in the closets of official Washington today as the Brookhart-Wheeler committee dug deeper into the morass of sensational inference and insinuation concerning the relationship that existed between Atty. Gen. Harry M. Daugherty and Jesse W. Smith his "man Friday," whose tragic suicide a year ago has never been fully explained.

Mrs. Roxie Stinson, divorced wife of Smith, again was the chief witness before the senate committee, that is, in her testimony, she related the story of her husband's life and death, and the profits she said came to the dead man through his close association and long intimacy with Daugherty—profits from stock deals and from sources she intimated were most mysterious.

All her knowledge of these matters, she told the committee, came from conversation with the dead man. Although they were divorced eight years ago, after only a year and a half of married life, Smith supported her until the time of his death, she said, and she frequently saw him and talked with him about his new business in Washington and his association with Daugherty.

Testimony Not Legal
She did not specifically charge that Daugherty was a party to these mysterious deals, but she said Smith had intimated to her that he was always referring to "we" as meaning himself and Daugherty.

Friends of the attorney general were indignant today at the nature of the testimony, pointing out that none of Mrs. Stinson's testimony would be accepted as legal in any court of law and the fact that the committee did not allow Daugherty's counsel, Paul Howland, to challenge the testimony, or cross examine the committee was "stacked against woman they declared was proof that Daugherty."

Senator Wheeler, "the committee prosecutor" who went to Columbus and personally conducted Mrs. Stinson to Washington, decided today to go deeper into the stock dealings stories. Mrs. Stinson testified Smith had given her a small block of shares in White Motors and Pure Oil which she said Smith told her "they got for nothing."

The attorney general issued a brief formal statement today, referring to the senate investigation as an "alleged" investigation of his official act and the department of justice.

FUNDS AVAILABLE
FOR WEAK SCHOOLS

Attorney General's Ruling Provides Fund Of One Million Dollars.

Columbus, March 13.—Additional help for weak school districts came today when Atty. Gen. Crabbe rendered an opinion to State Auditor Tracy that the proceeds from the fifteen hundredths of a mill levied in those regions may be used the remainder of the present school year.

The money available as a result amounts to about \$750,000, Crabbe declared, and with what remains from the \$2,000,000 appropriation by the state legislature at its last session there will be approximately \$1,000,000 available for weak schools, he said.

About 200 Ohio schools that were about to close will be kept open the remainder of the year, it was predicted, as a result of Crabbe's ruling, and the decision a week ago by the state supreme court that weak school districts may yet levy a three-mill tax on the June duplicate and collect it in entirety. They may, also, apply for help from the state educational equalization fund after levying the extra tax.

OF HAUGER HOME

The Woman's organization of the M. E. church will remodel the church's parsonage, which is located on Lincoln ave.

A new porch is to be built, it is to be repainted and some improvements made on the interior, at a cost of about \$1,200 for the entire improvement.

This announcement was made after a meeting of the organization Wednesday afternoon at the church. Reports from the various circles, into which the organization is divided were given.

Mrs. Mary Pine, who has been serving as vice president, was elected president at this meeting.

ROOSEVELT SAYS
HE SENT MARINES
AT FALL'S REQUEST

Tells Committee Daniels Did Same Thing In Previous Case.

Washington, March 13.—Abandoning temporarily the investigation of loans and alleged "slush funds," the senate oil committee today decided to delve into the political aspects of the oil scandal and issued a fresh batch of subpoenas for men identified with presidential candidacies, past and present.

Among those subpoenaed were Rud Hynicka, Republican national committeeman from Ohio; Norman J. Gould, eastern manager for Wood in 1920; Harry McKenzie, now identified with Coolidge's Chicago headquarters; Charles H. Gerish of Columbus, and Tiffin Gilmore of Columbus.

These men will be questioned about the rumors of "deals" being made concerning the leasing of the naval oil reserves particularly in 1920 at the Chicago convention.

Major General John A. Lejune, commandant of the marine corps, was the first witness before the committee today. He told of a detachment of marines being sent to Teapot Dome in 1921, to eject "squatters and trespassers" at Fall's request. Theodore Roosevelt, acting secretary of the navy, issued the orders.

Roosevelt was then called to the stand and declared that the order had been insisted upon by Fall who said he and "the president wanted the trespassers put off Teapot Dome."

"Ex-Secretary Daniels of the navy did practically the same thing in a previous case," said Roosevelt. "Apparently there was some argument at the beginning whether the president (Harding) would agree for it appears that one of the trespassers was a friend of the president. But it turned out not to be true and the president fully agreed with the order."

Roosevelt told Senator Kendrick, Democrat of Wyoming there was no immediate protest against this action but recalled "that some time later somebody protested but I don't remember it very well."

"Did the governor of Wyoming protest?" asked Kendrick. "I can't recall it now."

"General Lejune and I decided," Roosevelt said, "to send no one who would prove rash. I mean, anyone who might shoot somebody."

Attorneys Also Ask Court To Compel Sinclair To Return Money.

Chicago, Wyo., March 13.—Charging former Secretary of the Interior Albert F. Fall and Harry F. Sinclair, president of the Mammoth Oil Co., with conspiracy to defraud the United States, the government today filed suit in the federal court here to cancel the lease under which Sinclair obtained rights to the oil on the Teapot Dome naval reserve.

The government suit was based largely on the allegation that an executive order issued by the late President Harding on March 31, 1921, was invalid and illegal, but it was charged that this order gave Fall authority to dispose of certain oil lands was obtained from the president through misrepresentation.

The suit was filed by Atlee Pomerene and Owen J. Roberts, the special counsel named by President Coolidge to conduct the oil litigation for the government.

Their complaint asked that the court proceed as follows:

Eight Actions Sought
1—Issue a temporary injunction restraining the Mammoth Oil Co., from further operations under its lease of April 7, 1922, and its agreement of Feb. 9, 1923.

2—Appoint receivers to take possession of the Teapot Dome pending the conclusion of the litigation.
3—Issue a final injunction prohibiting any official of the Mammoth Oil Co., including Sinclair, from trespassing on the Teapot Dome.

4—Enter a decree holding the lease of April 7, 1922, and the agreement of Feb. 9, 1923, null and void.

5—Enter a decree commanding the Mammoth Oil Co., to surrender the agreements to the government for cancellation.

6—Enter a decree commanding Sinclair to repay the government for all the oil taken from the reservation.
7—Compel the Sinclair Crude Oil Purchasing company and the Sinclair Pipeline Company, to prove that they have any right to the lands they now occupy in Wyoming.

8—Grant any other relief for the government that the court deems advisable.

After formally establishing the fact that Albert F. Fall was secretary of the interior and that Edwin Denby was secretary of the navy at the time the Sinclair lease was entered into by those officials, the government bill in equity quoted the statute under which the secretary of the navy has control over naval oil reserves such as the Teapot Dome. It declared that the Harding executive order was illegal and invalid, and then said:

The will provides that \$1,000,000 in bonds be set aside for the creation of "The Jacob L. THREE MURDERERS
FLEE DEATH HOUSE

Mysterious Letter Warns Ohioans To Watch For Trio In Airplane.

Lima, March 13.—A mystery letter, warning the Lima addressee to be on the lookout for three murderers who escaped from the death house in Arkansas state prison several weeks ago, stirred city and county officials and postal inspectors here to a vigorous search of the city today.

The communication, postmarked Little Rock, was addressed to E. Harmon, and was delivered to F. A. Harmon, a prominent business man here. It contained a newspaper clipping telling of the escape of the three condemned slayers from the death house and their flight in an airplane.

The letter asked the addressee to be on the watch for the men and to apprise the writer of their safety if they reached Lima. It was signed "John," at a Little Rock street address.

Harmon turned the letter over to police, who in turn notified Post-office Inspector Cordrey. State officials at Little Rock have been notified. The trio were sentenced to death for the murder of a Little Rock policeman last year.

DENY THEY SEEK
TO CONTROL RATE

Hanna Brothers Say They Want Taxis Put On Standard Basis.

"We want the people of Salem to know that we are not trying to put any competitor out of business, that we do not want to control rates for any taxi, and that we do not want to do anything that is not absolutely fair to the public," said Dallas Hanna, one of the operators of the Salem Transfer Co., in a statement Thursday in which he answered criticisms of their proposals to council.

The company proposed that city council pass an ordinance requiring insurance on each taxi, requiring each taxi to carry a city license, and also carry a meter. But the company has not, will not, ask for a standard rate charge, said Hanna.

"As far as we are concerned all other taxis can charge what they please, but we would like to see council require meters so that the whole taxi business in Salem can be put on a standard business basis, like the business is in most all other cities now."

"We want the people to understand we are honest in this, and we are not trying to coerce council into doing anything, or we are not suggesting anything that might be injurious to a competitor, or the public. We merely want people to pay for the service they get, no more."

AUDITOR MAILS
SCHOOL CHECKS,
18 GET NOTHING

County Auditor Charles E. Hamilton Thursday mailed checks to 25 school districts in the county for school funds collected during the December collecting period, but there are 18 boards of education in the county that will receive no money at all.

This is because these boards of education have failed to comply with the law, which provides that before any settlement can be made for school tax collections between county auditor and the several boards, the latter must file with the county auditor a statement of its bank balance and also the bank which is the depository of such board must also file a similar statement with the auditor showing the balance in such school fund.

MUSIC SHOALS

BY the decisive vote of 227 to 142

the house has declared for leasing

Muscle Shoals to Henry Ford. There

is much evidence that the pressure of

popular sentiment and especially the

desire of the agricultural interest

prompted this action. Politics seemed

in the end to have less to do with

the decision than might have been ex-

pected from previous line-ups and,

though the Democrats rather gener-

ally supported the bill, many Repub-

licans did likewise. The measure still

has to run the gamut of the senate,

where the result is considered

doubtful.

Mr. Burton of Ohio made a strong

and almost sensational speech in the

house against the lease the other

day. He said that the lease would

violate the settled conservation pol-

icy of the government, that the price

to be charged Mr. Ford, \$5,000,000,

was ridiculously inadequate, that,

though the lease was to run for 100

years, the system of manufacturing

fertilizers from nitrate is even now

changing radically. Speaking of the

\$5,000,000 to be paid for the lease,

Mr. Burton said: "What policy of

economy or conservation of public

rights or interests can we insist upon

if we throw this away? And there

are possibilities there, my friends,

that make Teapot Dome look like a

bagatelle and Mr. Dooley and Mr.

Snodgrass as men whose injured in-

nocence should be forever vindicated."

Mr. Burton says the property rights

Mr. Ford would get for \$5,000,000 are

worth \$20,000,000, with almost un-

limited development possibilities.

Still, Mr. Ford makes what is con-

sidered the best offer, and the sub-

ject has been under discussion a long

time; no one would suspect any

crooked work on his part, and the

farmers need cheap fertilizer. The

property, with its great productive

possibilities, does the public no good

while it is undeveloped and idle.

a book of 60 pages, only one-third of

an inch thick. The price is 21 shil-

bits.

Its title is, "The Future at Monte

Carlo: A Method Explained Whereby

the Bank Must Fail."

"The intention," he writes, "is not

to put forward a new system in op-

position to the bank, but to invert all

that has gone before insofar as to

compel the bank to take the place of

the system manager."

He shows how a number of players,

working in concert, may force the

bank to play one of the famous sys-

tems, such as that devised by Labou-

chere.

The Baresford system, he declares,

may be played by people with as little

as £30 or £40 apiece, for "with so small

a reserve many would lose their all;

a few, however, would probably win

heavily. . . . One solitary winner

could easily win an amount in excess

of the losses of all the others." He

claims that if every one followed the

Baresford method, Monte Carlo would

be out of business in six months.

Hon. S. R. Baresford is manager of

mous swimmer and trap shooter. He

lives in New York and London and

Quintana Roo Better

Quintana Roo left a bad taste in the

mouths of Mexicans in the days of Por-

firio Diaz because it was principally

known as the place to which political

officers and "bad Indians," mainly

from Sonora, were sent to die and

die in its unhealthy climate. But now

comes a report telling of the vast natu-

ral resources of this practically un-

known territory of 18,000 square miles,

comprising the eastern part of the pen-

insula of Yucatan and extending about

300 miles north and south. Data brought

to United States Consul O. Gaylord

Marsh at Progreso by prospectors,

chiefly engineers and archeologists show

that Quintana Roo has several ranges

of hills about nine miles and several

short rivers. The western part is said

to contain white rolling prairies, the in-

terior is rich in valuable tropical woods

and the coast abounds in fish. The soil

is reported good for all sorts of tropi-

cal and semi-tropical vegetables and

fruits.

Of the some 10,000 inhabitants of the

territory 2,500 live in Santa Cruz de

Bravo, the capital. Transportation to

the interior is lacking, but the recent

arrival of an American caterpillar

tractor has given the more enterprising

coast residents visions of a speedy de-

velopment.

When the members meet the second Wednesday in April with Mrs. Samuel Ritter, Garfield rd., the general discussion topic will be "Eating at Home and at School" and at roll call the members are asked to give some house-cleaning hint.

Senior "Kid" Party

Seniors of the Salem High school are expected to throw off their dignity and go back to their childhood days at the Senior "kid" party to be held Friday evening. A large percentage of the class is expected present for the fun.

Due to the condition of the gym floor it has been useless for the class to hire the customary orchestra. The committees for the event are hard at work.

Homemakers Club

A number of select readings and discussions of questions pertaining to homemaking added interest at a gathering of Homemakers club associates at which Mrs. Percy Dillworth was hostess Wednesday afternoon at her home, Newgarden rd. A social time and lunch were enjoyed. The second Wednesday in April the members will meet again.

Star Club

Visiting had needlework occupied the hours at a meeting of Star club associates Wednesday afternoon with Mrs. Herbert Lora, Benton rd. The hostess served a pleasing lunch. Mrs. Lester Burton, Goshen Center rd., has invited the members to be her guests the second Wednesday in April.

T. G. T. Club

Members of the T. G. T. club were guests at an all-day quilting Wednesday at the home of Mrs. Clark Marlene, south of the city. The hostess served a chicken dinner. Mrs. David Asby was welcomed as a visitor. In four weeks the members will meet again.

At Mangus Home

Euchre was an enjoyable pastime at an assembly of club associates at which Mr. and Mrs. Jesse Mangus were hosts Wednesday evening at their home, North Union st. In two weeks the members will be guests of Mr. and Mrs. Earl Strock, East 7th st.

Thimble Club

Thimble club associates were luncheon guests Wednesday of Mrs. Phil Chancellor at her home, McKinley ave. Needlework was a pastime while the guests visited. In two weeks the members will meet again.

Benefit Social

A benefit card social will be held Monday evening at the home of Mr. and Mrs. Bert Leach, 216 West Pershing ave. All members of Allen Key roads post, V. of F. W., and its auxiliary are invited.

Literary Club

Mrs. Walter P. Denning entertained at a 1 o'clock luncheon Wednesday at her home, Lincoln ave. Received literary club associates. The afternoon was devoted to playing Mah-Jongg.

St. Patrick's Dance

The Harmony Players will furnish music for a St. Patrick's dance to be given at the K. of P. hall, Thursday night, by Mr. Greenwalt of the Greenwalt Dancing academy, Alliance.

Mr. and Mrs. W. C. Coffee of West Seventh st., returned home Wednesday after spending the past week in Alliance visiting at the home of their daughter and husband, Mr. and Mrs. R. W. Dunn.

Mrs. Charles Sellers, of Washington st., who spent two days at the Cleveland clinic for treatment, returned home Wednesday evening. Mrs. R. A. Ohl accompanied her.

Mrs. Ralph Snyder, Mrs. Harry Booty and Mrs. Mary Brownfield will leave Friday for Cleveland, where they will attend the state convention of the World Wide Guild.

George Pow has returned home from Kansas City, Mo., where he completed a course in the Sweeney Automobile school.

William Juergens has gone to Columbus, where he will attend a convention in the interest of the Salem Lighting Co.

Mrs. C. R. Wallace of Struthers visited Wednesday at the home of Della M. Walker, McKinley ave.

William Spring of the Spring-Holzworth Co., is in the Central Clinic hospital for treatment.

Miss Gertrude Blockinger left Wednesday evening for Cleveland to spend a few days.

MEMORIAL DAY COMMITTEE IS NAMED BY VETS

Ernest Schmidt, Floyd Lafferre and H. G. Green were named on the Memorial Day committee by the Veterans of Foreign Wars at their meeting Wednesday night at the Eagles lodge rooms. This committee will make plans for the memorial program.

The poppy committee that will have charge of the sale of poppies in Salem for the benefit of the vets in hospitals and orphan homes, will be headed by H. G. Green, recently elected county vets president.

A report on the recent meeting of the county council was given by the delegates who attended.

Tickets for the concert to be given by the post on March 31 at the high school are being bought readily. The Rhonda Welsh choir will appear here for one performance, and a full house is anticipated.

SEE HEAVY CROP OF SMALL FRUIT IN THIS COUNTY

Unless a severe spell of cold weather sets in, indications give early promise of a heavy crop of small fruit in Columbiana county this year. Growers now say that all bushy berry plants seem to be in a very healthy condition and that strawberry plants have not been harmed by the snow and frost.

In the eastern part of the county especially in Salem and Fairfield townships, a larger acreage of strawberries will be cultivated this year than formerly. Growers for several years were hit by a scarcity of pickers and were unable to cultivate as much fruit as formerly.

In Elkhart, Middleton and St. Clair townships, small fruit plants are looking good, while cherry and peach trees are declared to have come through the winter in excellent condition.

SENTENCED MAN THREATENS LIFE OF U. S. OFFICER

Cleveland, March 13.—Considering for the three children of Charles La Pristo, and his wife Marie, of Akron, was said today to have been a large factor in the verdict of no guilty returned in her case by a jury in Judge Paul Jones federal court yesterday on an indictment charging violation of the federal narcotic act.

Her husband was found guilty of 14 of the 16 counts contained in the indictment.

When Judge Jones imposed a sentence of four years in the Atlanta federal prison on La Pristo, the defendant in open court threatened the life of Federal Narcotic Agent Joseph J. Murphy, who worked up the case.

MINERS VOTING ON THREE-YEAR WAGE CONTRACT

Miners in Columbiana county are now casting ballots in a referendum vote to sustain the approval of their national officers in entering into a three-year contract with the operators.

At a joint meeting of the miners and operators held in Florida recently, the three-year contract was proposed, and while acceptable to the leaders of the miners organization, the latter have submitted the question to the trade for their approval.

Several miners locals in this county have already voted on the question. Final adoption of the proposition would mean that no general strike in the coal trade would result during the three-year period.

Story of Deadly Arizona Fued Is "To The Last Man"

Zane Grey, the Author, Assists in Screening of Vitale Photoplay.

Not a motion picture based on a story, but a photodrama which actually breathes the spirit of the original tale and personality of the author, is Paramount's new picture, "To The Last Man," a Zane Grey production, at the Royal theater tonight and tomorrow. Zane Grey spent several summers winning the confidence of the inhabitants of the Tonto Basin, Arizona, from whom he learned the story of the famous Pleasant Valley war, a fued of the late eighties which was fought out literally to the "last man."

Gaston Label, leader of the cattlemen and Lee Jorth, leader of the sheepmen are old enemies. Both have come to the Tonto Basin from Texas with their sympathizers. Knowing that a fight is coming, Gaston Label sends for his son Jean, who is a trapper in Oregon. Meeting Elmer Jorth's daughter, on the way to the valley, Jean falls in love with her. 62h

Dynamiting the Mosquito

Man has begun to use high explosives in his war against insects. Dynamite, which we usually think of in connection with the destruction of big things, is now being employed against little mosquitoes. It is used to blast these dangerous disease-carrying pests out of existence by digging ditches which drain the mosquito grounds.

SMALL BEGINNINGS SHOW BIG RESULTS

Many great enterprises begin in a small way. Many a successful advertiser has begun by using classified advertisement in a modest way. These brought good returns, which enabled the business to be developed, and eventually large advertisements were profitably used. Intelligent use of the little ads in The Salem News either by advertiser or reader will prove to you.

LOAN BY MORGAN SENDS FRANC UP

Wall St. Rumor Says France And Germany Will Accept Terms.

New York, March 13.—Continuing its advance, as sensational as the recent decline, the French franc was up 19 1/2 points at the opening of the foreign exchange market today.

The opening price was based on the confirmation of reports that J. P. Morgan and Co. had headed a group of bankers to throw \$100,000,000 gold certificates to the French government to check the drop of the franc.

Rumors of the loans had filled Wall street for several days and on the strength of them the franc dropped and stopped and a rise set in.

Today Wall street defeated another rumor—that the end of the tangle in sight and France and Germany will accept the recommendation of the inter-allied experts committee headed by Charles G. Dawes. In the opinion of bankers, the Morgan syndicate loan backs up this point for it was pointed out that \$100,000,000 would not be loaned on any hope of better conditions without some assurance of definite plans to bring about the improvement.

FALL AND SINCLAIR

(Continued from first page.)

missions and activities of Albert B. Fall, then secretary of the interior, and the President, in making said order acted upon said representations. The representations were false in that Fall represented to the President that said order was a proper order, and that its execution and promulgation was desired for the public benefit and for the advantage of the United States while in truth, and in fact, Fall desired that the said order should be made in order that he might deal with the lands, not in the interest of the United States, but to the advantage, profit and benefit of defendant, Mammoth Oil company, and in particular of Harry F. Sinclair.

"The representations so made were in the interest of and for the purpose ultimately of benefitting the defendant, and not in the interest of and for the benefit of the United States of America."

"All of said representations made by Fall were false and untrue and were at the time known to be false and untrue and were made by him for the unlawful purpose of enabling him, as secretary of the interior, to effect a pretended and unlawful transfer of rights in said lands from the government of the United States to the Mammoth Oil Co."

Referring to the lease of Teapot Dome entered into by Fall and Denby, with Sinclair, on April 7, 1922, the complaint said the lease was null and void in that its pretended execution was effected without authority in law."

No Competitive Bids.

As to the agreement of Feb. 9, 1923, for the construction of government oil storage tanks by Sinclair, it was declared to have been made without advertisement or competitive bidding and was "therefore fraudulent, illegal, null and void."

In one paragraph of the government's bill it was stated that Secretary of the Navy Denby took no part in the negotiations of the Sinclair case and contract and affixed his signature thereto merely as an attempt to convince the compliance by him in its terms and an exercise of discretion in connection with its making."

Detailing the negotiations between Fall and Sinclair, the complaint said that other persons, viz: The Texas company, the Pioneer Oil company, Edward L. Doherty, Leo A. Stack and others, tried to get leases in the Teapot Dome but were denied an opportunity by Fall.

It was declared that Fall "steadfastly refused to take the opinion of the solicitor of the department of the interior or of the attorney general of the United States concerning the legality" of the leases and charges were made that Fall "secretly communicated" to Sinclair that he could not obtain any leases in the Teapot Dome until he presented quit claim deeds for the lands embraced within the agreement.

Reference also was made to the agreement whereby John C. Shaffer, Denver newspaper publisher, obtained certain lands in the naval reserve by negotiation with Sinclair and Fall; and to the fact that public announcement of the Teapot Dome lease was not made until several days after the contract was consummated.

Specifics Fraud

"In negotiating and concluding said agreement," the bill declared "Albert B. Fall and Harry F. Sinclair did fraudulently combine, confederate and conspire in the manner and by the acts herein above set forth and other matters and things, to defraud the United States of America."

(a)—By granting said lease upon said petroleum lands in violation of law.

(b)—To favor and prefer said defendant Mammoth Oil Co., over and above other persons desirous of taking a lease upon said lands.

(c)—To insure to said defendant Mammoth Oil Co., the valuable right to receive and take to exhaustion all of the oil and gas which might be obtained from said lands in said agreement mentioned.

(d)—To lease the said lands to said Mammoth Oil Co., by said government at an inadequate, improper and fraudulent consideration.

Alliance Salvation Members At Meeting

About 20 from the Salvation Army, Alliance, officers and band members, came to Salem Wednesday evening and participated in the evangelistic meeting at the local army's barracks, West Green st. This service was marked by the largest attendance of any since the series began.

Preceding the meeting an open air

service was held. G. F. Smith, of Alliance, preached the sermon, in which he emphasized the necessity of a new birth, of which Jesus Christ told Nicodemus.

Rev. Stella McCann, of Damascus, who is assisting in the services, spoke Tuesday evening. In her message she stated "There are 4,000 kinds of religion, but only one salvation, and that through the Son of God."

OBITUARY

William Kennett.

Word has reached here of the death of William Kennett, of Concordia, Kans., which occurred March 10. Details were not given.

This aged man was born and reared in Salem and followed the carpenter trade while here. He had lived in the west for a number of years.

Mrs. Louise Senheiser.

Mrs. Louise Senheiser, 79, of Washingtonville, died Wednesday afternoon at her home from infirmities of age. She had been a life-long resident of this village.

She is survived by three sons, Lee and Ensign, at home, and George of New Castle, and one daughter, Melba John Hatfield, of Youngstown. The funeral service will be held at 2 p. m. Friday at the Lutheran church in Washingtonville.

22,000 Railroad Men Given Wage Increase

Philadelphia, March 13.—Approximately 22,000 employees of the Pennsylvania railroad will benefit through a five per cent. wage increase announced today.

The increase affects engineers, firemen, hostlers and hostlers' helpers and is retroactive to Jan. 16, 1934.

Agreement on the new wage scale was reached yesterday at a meeting of representatives of the company and employees.

Teeth Stains Removed —for Few Cents!

No More Yellow Teeth—New Discovery Whitens Teeth Instantly

A new harmless treatment has been discovered which, often in only three minutes—gives dull, yellowish teeth a beautiful, pure whiteness. This new treatment, called Bleachodent Combination, consists of a mild safe liquid and a new kind of paste. The liquid erodes or softens the stains, while the paste gently removes them, and prevents the formation of new stains. The bleaching action completely disappears after a few applications. Bleachodent Combination is a new scientific product, perfected by dental specialists who know that there must be a better, safer and less expensive way to clean teeth than the old way of having them scrubbed an hour by harmful, gritty, abrasive, Bleachodent Combination is especially recommended for children's teeth, as their teeth are in a soft formative period during which any paste or powder should be avoided, and only a safe, mild cleanser like Bleachodent Combination, which bleaches out stains but has no effect on the enamel, should be used. Bleachodent Combination does not affect enamel as its safe ingredients are intended to act only on the cause of the teeth stains—a substance called "tannin" which collects on teeth and forms a hard coating of stain.

Get Bleachodent Combination today, for just a few cents at all good drug and department stores such as: Fred T. Hannon, Leese Drug Co., Treat's Drug Store, Haddon's Pharmacy, Bolger & French.

BRINGING UP FATHER

Touching Incident at Evacuation of Smyrna

In it all (the Smyrna evacuation) the terrible, the humorous, and the touching were strangely intermingled. One incident is typical of the brighter side.

I was busy one day getting the crowd through the gate and onto the pier when a woman with several children came separated from one without, crying that she had lost him. The little chap of three or four years being pushed, kicked and in danger of being crushed to death as many—yes, many of all ages—had been in that place, so dense was the terrified mass fighting their way toward safety on board the vessels.

A Turkish soldier saw him, dropped his rifle, pushed his way through the crowd, protecting the child with his own body, until he had saved him and restored him to his mother.

When the soldier came back, I smiled and patted him on the back to express approval. My linguistic shortcomings made it impossible to be more explicit, but the Turk had no need of English words. He went through an extraordinary performance that made mere speech quite needless. He held his hand at the height of a little child's head and opened two fingers, pointing first to himself and then back toward the country lying to the east, then, his hand on his heart, he shook his head.

His meaning was perfectly clear: he had, or perhaps, once had had—two children of about the age of the child he had saved.

Such is the terrible Turk—such, at least, is one side of him that I saw.—Mark O. Prentiss in the Atlantic Monthly.

Youngstown—Library officials here believe that Youngstown is undergoing a building craze. The demands for books of house plans, interior decoration and similar subjects has become so great that duplicate copies have been bought.

The Agoga class of the First Baptist church will meet at 7 p. m. Thursday at the church.

KENYON REJECTS NAVY PORTFOLIO

Washington, March 13.—Judge William S. Kenyon of Iowa, to whom President Coolidge offered the portfolio of secretary of the navy, has informed Mr. Coolidge he cannot serve, according to reliable reports here today.
Judge Kenyon had a long conference with President Coolidge at the White House this morning, but declined to state what decision has been reached. His friends, however, asserted he had turned down the offer.

the alleged investigation of the official acts of the attorney general and the department of justice. I have said nothing for publication since leaving for Chicago on Feb. 27.
"My attorneys are giving their attention to the matter to the extent they are permitted to participate in the alleged hearing.
"If pertinent inquiries regarding the department of justice and the attorney general were only made and the competent testimony taken the whole matter could be disposed of fully and finally in a week or ten days at most.
"Anything further regarding the investigation must be given out by my attorneys as I am constantly engaged in duties here."

CHURCH CONTEST BETWEEN TOWNS

Washingtonville Methodist School Competes With Leetonia.

Leetonia, March 13.—The Methodist Episcopal Sunday schools of Washingtonville and Leetonia have entered into an enthusiastic contest, the points of which are amount of offering, Sunday school attendance and the largest average attendance and the largest offering will receive a beautiful banner.

A contest has also been staged between the Men's class and the young men's Bible class of the local Methodist Sunday school, ending on Easter morning. The contest is for attendance alone, the losing class to attend alone, the losing class to attend alone, the losing class to attend alone.

Mrs. Joseph Wagenhouse, whose daughter was hourly expected at the Salem Clinic hospital, is reported to show slight symptoms of improvement.

Mrs. Clyde Shontz will leave Monday for Columbus, where she will spend the week in the home of her children, Dr. and Mrs. Donald Shontz.

Dogs Seek Prizes.

Edward Simpson is in Cleveland this week where he has one of his dogs and a bull-dog owned by C. R. Shontz on exhibition at the dog show. The latter part of the week Mr. Simpson will attend the dog show in Akron.

Next the dogs will be entered in the Columbus dog exhibit. About the first of April they will be exhibited in Cincinnati. Mr. Simpson brought home several first prizes last year.

Mrs. Charles, Columbiana, attended the Lenten prayer meeting at the home of Mrs. William Groner Tuesday afternoon.

Mrs. Anna Thrasher spent a part of Tuesday in Columbiana.

Salem shoppers and callers from Leetonia within the week were: Mrs. Charles Longenecker, Mrs. Fred Hollinger, Mrs. Harry Daugherty, Mrs. Harry Laughlin, Mrs. W. D. Morris, Mrs. Wilbur Elwonger, Mrs. Raymond Baker, Mr. and Mrs. W. S. Groner, Mrs. Robert Cushing, Mr. and Mrs. John Needham, Mrs. Conrad Berg, Mrs. Joseph Butero, Mrs. Alfred Grace, Mrs. Mary Walker, Mrs. Harry Gibson, Mr. and Mrs. LeRoy Sell, Mrs. William Wagenhouse, Miss Margaret Huffnagle, Miss Bechtold, Mr. and Mrs. Ross McFadden, Mrs. W. P. Wilhelm, Mrs. Leroy Keyser, Mrs. Grace Wagenhouse and sister, Miss Cassandra, and Mrs. Fred Flodrig.

Miss Olive Whitaker entertained her friend, Mrs. Hugh Farmer, from south of town this week.

There is almost an epidemic of whooping cough in town at this time. A date for the pageant, "The Way," will be announced within a few days. The training is in charge of Mrs. Wilbur Mellinger. Several rehearsals have been held and the entertainment promises to be an exceptionally fine one.

Mrs. Lydia Weaver, who has spent the winter with her daughter, Mrs. Frederick Nilson, in Rochester, is expected home about April 1.

Mrs. Elmer Harold has been confined to her home by a severe cold.

133 IN FIRST WINTER CLASS AT OHIO STATE

Columbus, March 13.—Marked by the usual dignity of formal collegiate occasions, the first winter quarter convocation in the history of Ohio State University is scheduled for 4 p. m. Friday in the University chapel, representing eight of the 11 colleges of the University, 133 young men and women were candidates for degrees.

Prof. Raymond C. Osburn, head of the department of zoology and entomology, and himself an alumnus of the university, will give the principal address. "The Relation of Science to Modern Education and Civilization" is his topic.

The college of agriculture, including home economics, led with 29 members of the class. The commerce and journalism college was a close second with 23, followed by arts, philosophy and science with 22, pharmacy with 14, education 4, engineering 10, law 3, and applied optics, 1. Candidates for advanced degrees numbered 17, including three for the degree of doctor of philosophy, the highest in the gift of the university, and seven each for the degree of master of arts and master of science.

With approximately nine-tenths of the members of the class from Ohio, men greatly outnumbered women. There were 32 women candidates for degrees and 101 men.

Although the University is in its second year of operation under the four-quarter plan by which students can go to school the year round, quarterly convocations were not inaugurated until last summer. The present class brings the number of students completing their work this school year at times other than in June to 385. The August class numbered 150 and that in December 103.

REVENUE BUREAU OBJECT OF PROBE

Washington, March 13.—A sweeping senatorial investigation into the bureau of internal revenue, which handles all federal tax matters, was authorized by the senate yesterday.

The resolution of investigation was introduced by Senator Couzens, Republican, Michigan, who has engaged in frequent disputes with Secretary of the Treasury Mellon concerning tax policies and conditions.

The resolution passed without a record vote.

Senator Watson, Republican, of Indiana, was later named chairman of the investigating committee, the other members being Ernst, of Kentucky, and Couzens of Michigan, Republicans, and Jones of New Mexico and King of Utah, Democrats.

DONAHEY WARNS LOCAL OFFICIALS

They Must Carry on the Work of Law Enforcement.

ALL CITIZENS ASKED TO ASSIST

Governor Issues Proclamation as a Result of Attorney General's Ruling Outlawing "Card" Officers. Three-Cornered Fight Waged Over County Postoffice—Taxes of Gas Companies to Be Reduced.

Columbus, March 12.—As a sequel to Attorney General Crabbe's ruling outlawing "card" prohibition officers, Governor Donahey issued a proclamation calling upon city, village and county officials to carry on the work of law enforcement under penalty of removal from office.

The governor also appealed to private citizens to co-operate with their duly elected officials in stamping out illicit liquor traffic and to give all possible aid to law enforcement.

In his proclamation Governor Donahey says:

"I believe it was the original intent of the Miller act that the state inspectors be made supervisors to assist local authorities in law enforcement, and not to establish a constabulary which would police the state and conduct raids against offenders. With these permanent inspectors as guides, local officials can adequately handle the situation, and it cases are brought to my attention where they exist, I will use my authority under the Miller act to remove the responsible officials."

"I have this day instructed the state prohibition commissioner to have his department devote itself largely to co-operating with and assisting these local officials to obtain better and effective prohibition enforcement in their respective communities."

On the other hand, the state department will expect the fullest co-operation from local authorities, and where public officials will not give such assistance wholeheartedly—whether it be in the largest city or smallest village—state inspectors will report the facts to the prohibition commissioner. If, after personal investigation, the commissioner finds such charges warrant further action, it will be his duty to file them with the governor and recommend removal proceedings.

"In this connection, private citizens of Ohio must not forget their own responsibility in the enforcement of law. They are stockholders in the community in which they reside and wherever they are aware of violations they should report them to the proper authority. The citizen who is blind in the eye next to law violation is a misfit in our system of government. Officials will be more effective and efficient in their public duties if they have the encouragement and support of their constituents."

The governor declared that if the laws are not properly enforced under his proclamation, "there will be more trouble in the governor's office than has ever been seen before."

Political leaders are calling attention to the fact that in the selection of candidates for national delegates by the management of the interests of former Governor Cox in Ohio the name of Governor Donahey is omitted from the list of delegates-at-large. Governor Cox was never outspoken against Governor Donahey as Ed H. Moore and others of his supporters were; in fact, it was supposed that he was inclined to be friendly with Governor Donahey and for that reason the omission of the governor from Cox's approved list of delegates-at-large candidates is held distinctly noticeable.

For some reason no district delegate candidate for the Cox ticket was selected from the governor's county, Tuscarawas. Robert N. Wilkin, a New Philadelphia attorney, was a candidate for the district delegateship and had secured the indorsement of the Democrats of his own county and of Wayne, Stark and Holmes. Herman R. Witter, Canton, now director of the state industrial relations bureau, was one of the chief indorsers of Wilkin.

Robert S. Hayes, manager of Governor Cox's interests, is quoted as saying that it had been decided not to select a delegate from Tuscarawas county. Apparently it had also been decided not to give Tuscarawas even an alternate, for which Tuscarawas had indorsed Susie Anderson for alternate. She was not placed on the approved list. E. E. Kline of Canton and E. S. Wertz of Wooster were listed as the district delegates.

D. H. M. Platter, chief of the state medical board, has asked Attorney General Crabbe for an opinion as to the legality of the action of County Auditor W. B. Crim of Champaign county in liberating two chiropractors from the county jail. Auditor Crim acted under section 2576 of the general code, which provides that the "owner or manager of a premises who is established that the county is

not collect the fine for which he is serving sentence. The medical board declares he is without authority under this act to free the chiropractors, since the fine in this case is paid to the state medical board and not to the county. In a statement given out at Urbana Mr. Crim declared that since the county first collects such fines and then distributes them to the state, he was within his legal right in freeing the two men.

According to Dr. Charles Clark, superintendent of the Lima state hospital for the criminal insane, prohibition is not causing any increase in the number of criminal insane in Ohio. He shows from the records that in 1921, the commitments were only 90, and in 1922, 77, including 20 who were transferred to Lima from Cleveland to relieve congestion in Newburg hospital. The statement of Dr. Clark followed that of Dr. John H. Berry, superintendent of the Athens state hospital for insane. Dr. Berry was quoted as saying that several patients had been received at that institution during the past two years whose mental trouble could be traced indirectly to prohibition. It is now expected that commitments this year will probably show a slight falling off.

Report of the Ohio bureau of criminal identification and investigation made for February by William N. Smith, head of the bureau, shows that was the busiest month since the establishment of the department.

The total number of fugitives from justice apprehended during the month was 43, an increase of 12 over the preceding month. The total number of inquiries received by the bureau during the month was 1,254. Of the number 1,268 were made by departments of justice within the state and 86 from those in other states. Identifications within the state number 326 for the month and for out of the state 7, making a total of 333.

During the month the identification of two criminals wanted at the Michigan state institution and one who escaped from the West Virginia state penitentiary was accomplished by the bureau. In each instance the prisoners were returned.

A three-cornered fight is being waged over a county postoffice with Senator Willis, Congressman C. J. Thompson of Defiance and George A. Stauffer of Ottawa, formerly state chairman, as the principals. Senator Willis has no candidate, but has opposed Plummer D. Folk, whom Thompson has nominated. This has killed from Thompson the charge that the senator is a meddler. Willis claims that Folk is charged with being a shacker and bootlegger. Both charges are denied by Folk's friends. Stauffer wants to have W. D. Starling appointed, and has been down at Washington trying to effect a compromise on his man. Congressman Thompson has declared that unless his man is put in the office Postmaster Place, whose term expired Feb. 14, and who is of course a Democrat, will remain in office.

Taxes of Buckeye Pipe Line and of the Ohio Fuel Gas companies will be reduced approximately 40 per cent as the result of an agreement reached at a meeting of prosecuting attorneys with representatives of the two companies and the attorney general's office in Judge Sater's chambers. Injunction suits had been filed by the two companies against the counties, restraining the collection of the taxes on the ground that their property is not taxed by a uniform rule, being assessed at 100 per cent of its value, whereas other property in the county is on the tax duplicate at around 60 per cent of its true value. The contention of the companies is similar to that made by the Dayton City Railway company, which was decided in favor of the company by Judge Sater several months ago.

Because of this decision, effort is being made to obtain a compromise in the present cases, to avoid long drawn out litigation and heavy costs.

According to a statement issued by Republican state headquarters, the state payroll has increased \$125,000 a year under the Donahey administration. "Maintenance cost has increased \$800,000," the statement said. Figures are said to have been taken from the records of the state auditor. Largest increase is in the department of industrial relations, where the personal service was increased \$36,349.32.

Other increases reported were: Finance department, \$5,988.75; commerce, \$13,539.83; education, \$7,865.28; and welfare, \$30,239.50. Maintenance costs were increased as follows: according to the report: Military organizations, \$1,657.38; finance department, \$2,752.88; commerce, \$5,880; health, \$138,170.66; and welfare, \$338,885.56.

Norman E. Beck, chief of the division of securities of the state department of commerce, declares that the Ohio investors lose more money annually through speculation in companies outside of the state than is lost in all forms of investment in this state. The department has no control over this form of speculation, according to Beck, although it is against the Ohio blue sky law. He pointed out that a person can not be extradited who has not been personally in the state.

Figures compiled by the department show that from Feb. 1, 1922, to Jan. 1, 1923, charters of 2,720 corporations were revoked, affecting a total of \$22,448,870 in par shares with a par valuation of \$769,860,342.

Found Relief in Taking Lydia E. Pinkham's Vegetable Compound. Always Recommends It

Bridgeport, Connecticut.—"I was completely run-down, had headaches, dizzy, faint feelings and other troubles women often have. As I had taken Lydia E. Pinkham's Vegetable Compound before, my husband said to take it again. I have now taken Lydia E. Pinkham's Blood Medicine, the Liver Pills, and six boxes of Lydia E. Pinkham's Vegetable Compound Tablets. I am feeling very good now and shall continue taking them for a while. I have been telling my cousin about the medicine and she wants to take it, too. I always recommend it."—Mrs. HENRY C. SMITH, R.F.D. No. 3, Box 6, Bridgeport, Conn.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Smith's experience is but one of many.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 121,000 replies were received, and 98 per cent reported they were benefited by its use. For sale by druggists everywhere.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 50c.

Yes—it can be done

The finest of cars can be sold at these prices

THE Studebaker name guarantees to you the utmost in fine-car construction. For 72 years it has stood for quality, for honest workmanship, for square dealing.

It has always stood for style and class. Remember Studebaker carriages—supreme examples of fine coach building.

Consider our facilities—mark what we have at stake, \$90,000,000 in assets, \$50,000,000 in plants and equipment, \$10,000,000 in body plants alone.

Note our multiplying sales—the sensation of Motordom.

It is fair to assume that we can and do build the finest cars and at Studebaker prices.

What is a fine car?

A fine car means the best materials any cost can buy. We use 35 formulas for steels, each known to be best for its purpose. We pay a premium of 15% on some to get the formulas exact.

All Studebaker models are equipped with Timken bearings. There are few cars in America, regardless of price, which equal ours on this point. In our Light-Six, for instance, we put more Timken bearings than are used in any competitive car, within \$1,500 of its price.

A fine car means fine engineering. We spend \$500,000 yearly on that department, employing 125 able men.

It means careful construction. We have 12,500 up-to-date machines. 1,177 of our operations are exact to 1/1000 of an inch. 360 are exact to one-half of 1/1000 of an inch.

It means infinite pains. For instance, we machine all surfaces of our crankshafts as was done in Liberty Airplane Motors. We are

the only makers of cars at our prices who do this.

It means careful inspection. With us it means 30,000 inspections in the manufacture of each Studebaker car.

Luxury and beauty

It means a car to be proud of. Our body finish includes 15 coats of paint and varnish.

Chase Mohair is used to upholster our closed bodies—made from the soft fleece of Angora goats.

We offer much extra equipment.

Where savings come

Then how do the Studebakers so far undersell any comparable cars?

Because we build so many. The fixed costs are divided by enormous output—150,000 cars per year.

Because we build our own bodies. The saving to you on some types is up to \$300 per car.

Because we make our own forgings, saving another profit there.

Because our plants are modern and efficient. We have spent \$38,000,000 on them in the past five years.

Because we keep our men, make them partners, pay them large bonuses to stay. Changing men is expensive.

Because we conduct this business in every way on the best modern lines.

What buyers save

The Studebaker Light-Six Touring Car sells for \$1,045. Under ordinary manufacturing conditions it would need to cost you from \$1,200 to \$1,400.

On our Special-Six the difference might be \$400 to \$700.

On our Big-Six type the difference may run into thousands, depending on the number produced. For this car compares only with the highest-priced cars in Europe and America.

You will respect the Studebaker methods when you come to know them. You will admire the cars they create. You will delight in the values.

Remember that last year 145,167 fine-car buyers, after comparisons, chose the Studebaker models. So many people could not be wrong.

Learn why they did so before you buy a car at \$1,000 or over. You owe that to yourself.

Go and See Why Studebaker Leads

Studebaker is now the world's largest builder of quality automobiles.

Last year, 145,167 fine-car buyers paid \$201,000,000 for them.

There are 13 models.

Prices begin at \$1,025.

Go see the reasons for this trend. See why sales have almost trebled in three years. Why these cars have become the sensation of Motordom.

You owe that to yourself before you buy a fine car.

Some of our Big-Sixes, for instance, have two nickel-plated bumpers, one or two extra disc wheels with cord tires, a courtesy light, a motometer, steel trunk, etc.

This factory, remember, is the ancient home of fine coach work.

A fine car must be enduring. A Studebaker Big-Six, built in 1918, has so far run 475,000 miles. That means 80 years of ordinary service.

MANY INQUIRIES DUE TO POLITICS

STARTED OR PROPOSED IN THE
SENATE BECAUSE THIS IS
A PRESIDENTIAL YEAR.

By EDWARD B. CLARK
Washington.—A pleasantly ironical Washington writer, in commenting on the investigating fever of the senate, suggests that an inquiry should be started to fix the responsibility of the public wars, and suggests also "that there are a good many uncovered circumstances concerning the mystery of who hit Billy Patterson."

There are so many committees of investigation at work in the senate that during some of the sessions of the greater body the only quorum present is that of the pages. Of course some of the greater investigations are also necessary, but some of the minor ones probably have been started for political effect, for neither of the great parties has been at all backward in attempts to force a digging into affairs which perhaps might injure the other party's presidential prospects.

If there were no presidential campaign on this year there probably would be less investigating activity in congress. Not all of the demands for investigation have been granted, but a favorite method of senators and representatives is to put in a resolution for an investigation because they think for the mere calling of attention to some thing or other may arouse suspicion and perhaps produce votes for the party to which the resolution-introducer belongs.

Some Aspirants Hurt.
In a way the turmoil over oil and some other things seems to have crowded out the interest in the campaigns for the presidential nomination. As a matter of fact the oil affair has injured the chances for the nomination of one or two gentlemen who formerly were well placed and running strong in the race. Just now, especially in the Democratic party, there seems to be a casting about for information concerning the present availability of some man whose availability in the past was not doubted.

Opinion here seemingly is that Calvin Coolidge will secure the Republican nomination without doubt. A few weeks ago there was some doubt about it, but now the leaders of the Republican party seem convinced not only that he will be nominated but that he must be nominated.

The friends of Senator Johnson have in no wise given up hope that he will secure the prize, but seemingly they are pinning their hopes more upon possible new developments in legislation and in the investigating field to strengthen their cause enough to bring about the defeat of the President and the nomination of the senator.

Naturally enough Washington politicians, notably the Democrats, were intensely interested in the Chicago meeting of William G. McAdoo's friends to determine whether or not his connection as an attorney with the Doherty oil interests militated against his nomination ambitions sufficiently to make him unavailable as a candidate. It was rather expected that the Chicago meeting would declare that the former secretary of the treasury should remain in the field, and remain in the field he will.

Underwood's Chance Improved.
It will take some little time to determine whether his candidacy has been injured by the fact that he acted as an attorney for the Doherty interests although having nothing at all to do with the matters of the leases which have roused so much controversy. It can be taken for granted now that the McAdoo campaign will go on with vigor.

It seems to be unquestionably true that the prospects of Senator Osawatomie, Underwood of Alabama, who is an aspirant for the Democratic nomination, have been brightened by the seeming setback which came to the McAdoo cause. There are politicians here, however, who seem to think that another than either Mr. McAdoo or Mr. Underwood will get the prize. Who this is to be no one cares to predict definitely, but the name of Samuel M. Ralston of Indiana frequently is mentioned.

The other day in the senate Senator Ralston made his maiden speech. Senatorial courtesy is not all that it is cracked up to be, for many of Mr. Ralston's political opponents did not remain in the chamber to hear his first effort. His party members, however, announced themselves as exceedingly pleased with the way the Indiana senator treated the subject in hand.

John W. Davis of West Virginia, American ambassador to the court of St. James during the latter part of the Wilson administration, still is mentioned as a possible dark horse or a compromise candidate if either of the first favorites in the convention shall fail to get the two-thirds majority necessary.

The Last Straw
Mr. Busman was exasperated with the telephone. Ten times that morning he had tried to get a number and each time something had prevented him from speaking. At last he got through. "Hello," he said. "Is Mr. N. there?" "Yes," replied a voice. "Do you want to speak to him?" That was the last straw. Back went the reply in joy tones: "Oh, no! I merely rang him up to hand him a cigarette."

3 STATES UNITE TO FIGHT BORER

Three corn belt states—Ohio, Illinois and Indiana—have joined forces to check the inroads of the European corn borer, found last year in 19 northern Ohio counties.

They will ask farmers in those counties to set aside the week of April 21 to 25 for a concentrated attack on the corn borer, and to center their efforts on the burning of corn stalks. That week in April will be known as Corn Borer Burning Week.

State, extension service, and expert station entomologists from Ohio, Illinois, Indiana, Missouri, Michigan, Wisconsin, Massachusetts and the Federal Bureau of Entomology agreed on this program at a conference in Columbus last week.

During the week before that set aside as Corn Borer Burning Week, extension agents in these 19 northern Ohio counties will drop all other activities to tour their counties and urge every farmer to burn his corn stalks. To add to this drive, 10 specialists will set aside this same week. Three of the 10 will come from the Ohio Experiment station, one will be the extension entomologist of the Ohio State university, three will be crop men from the university, Indiana and Illinois will each send the head of the entomology department, and one will come from the federal bureau.

In this united campaign against the corn borer the attacking party will seek the aid of newspapers, motion pictures, group meetings, and county residents deputized for the week by the State Director of Agriculture.

APPLY SULPHUR ON YOUR ECZEMA SKIN

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Explains Prestige Of Newspaper Ads To Dry Goods Men

Columbus, March 13.—Style exhibitions by 75 wholesalers from various parts of the United States marked the closing session here today of the three-day convention of the Ohio Retail Dry Goods association.

Prestige in newspaper advertising was explained by H. H. Shively, former state health director, and member of the business Research Bureau, Ohio State University, addressing the convention last night. He declared direct mail advertising gives a personal touch, but the newspaper is the best medium.

Plans are being formulated for a joint committee on trade relations. Differences between the retailer, wholesaler and manufacturer may be ironed out by the proposed committee which is expected to consist of an equal number of members of each organization and a chairman not connected with any group.

Rural Women Get Demonstration In Making Clothing

Extension Service Of Ohio
State University Sends
Expert To County.

By M. K. ZIMMERMAN
Lisbon, March 13. Women living in the city of Columbiana could learn a lot about the construction of their own clothing if they were associated with Farm Bureau work, according to County Agent Clarence E. Rowland. And this has reference to better practices in the selection of clothing and also to teach health problems relating to clothing.

Miss Jeanette Wirt, of the Extension Service Department, Ohio State university gave a lecture demonstration on these two subjects before a group of about 30 women from the rural communities of the county Tuesday and about every township in the county was represented.

It has been pointed out that women of the city have the opportunity to become members of the County Farm Bureau and enjoy the benefits of the instructions, just the same as the women of the rural communities. And all this effort of the Extension Service of Ohio State means that the teachings of the university are being brought to the door of the home, instead of one being required to attend the university.

The meeting of women township leaders in this work held here Tuesday was augmented by the attendance of these women who will become assistants to the township leaders. The leaders have been selected through the agency of the township farm units and the leaders have been selected with the thought in mind that they would have time to attend all demonstrations who know how to sew and also possess the ability to carry on the piece of work in hand.

Responsibility for carrying on this work in the different townships rests solely with the township leader and her assistant. These two form groups or classes in sewing and clothing construction after which local leaders are selected.

The method of carrying on this clothing construction work, with reference to both practice and health, is that two all-day and one one-half day demonstrations are to be held one month apart which will be in charge of the specialist from the Extension Service. These two one month apart, carried on by the district leader and her assistant.

After the second demonstration with the specialist, township leaders begin work with the groups of local leaders, who in turn pass the work on to the women of their respective communities.

After local leaders have been trained, there has been planned on county wide demonstration with the extension specialist, and following the creation of group work in their local districts.

Outlines of subject matter and report blanks are furnished leaders from the Extension Service office and each county will own outright one set of illustrative material for the use of the district leaders in carrying on the work. This material is purchased by the County Farm Bureau and is always available for the women interested in this phase of home activity.

FAITHFUL OLD DOBBIN STAGING COMEBACK IN OHIO SAYS SALEM BOY

Columbus March 13.—Faithful old Dobbin, once displaced to some extent by the automobile and tractor, is putting on a real comeback in Ohio. Although the equine population of the state shows a decline in the last five years, the horse situation in both the cities and the rural districts is becoming stable.

These facts are disclosed in a survey of the horse situation in Ohio just completed by John Glenn Bates, of Salem, O., in partial fulfillment of the requirements for an advanced degree in animal husbandry at the Ohio State University. Bates is a member of the class to be graduated tomorrow at the winter convocation.

Evidence unearthed by Bates indicates a "back to the horse" movement is in progress in Ohio, although there is no reason to believe that there will ever be a return to the "boom" days of the horse. Horse breeders and dealers report more interest in horses this spring than at any time in recent years.

Decrease of 100,000.
In the last five years, Bates' survey reveals, the horse population of Ohio has fallen from 883,000 head to 787,000, due chiefly to the inroads made by motor vehicles. The same factor has been responsible for a shifting of the horse population of the state from urban to rural districts and for a scarcity of blacksmiths.

For 40 years, Hamilton, Cuyahoga and Franklin counties were among the first half dozen in the state in the number of horses. Today, as a result of the intrusions of the auto and truck, Franklin is eighth, Cuyahoga fourteenth and Hamilton seventeenth.

Ohio today ranks ninth in horse population, but the average value of Ohio horses is higher than for those of the other 19 leading states—\$108 as compared with \$77.60. On the basis of total valuation of horses, Bates' thesis shows, Ohio ranks third. The Buckeye state stands fourth in Percheron production and second in Belgian production. Delaware county is said to lead the rest of the United States in Percheron production. Van Wert county leads the rest of Ohio in Belgian production. Ohio is producing fewer but better horses.

Darke county now leads in horse population with 18,628. Wood, Wayne, Montgomery and Seneca follow in order. Bates' survey shows that Ohio horses are found in greatest numbers in the best agricultural sections of the state, where land is highest priced.

Returning to Horses.
Decline in the number of horses in Columbus and other cities in the last three years has been negligible as compared with the preceding seven years, leading to the belief that in the cities the horse situation is becoming stabilized once more.

Survey of a number of business firms in Columbus showed an appreciable proportion returning in whole or in part to horses and adding to the number. The testimony of business men, after five years of experimentation, was that the horse is superior to the truck in the city for short hauls of big loads.

Approximately 89 per cent. of Ohio's horses are on the farms. As

in the cities, Bates points out, the horse situation on the farm is more stabilized than four or five years ago because farmers, after experimenting with both horse and gasoline power, realize that each is best suited for certain purposes. Further than that, farmers are getting away

from meat production in such great quantities and back to horse breeding.

The New York-Washington air mail route, the first established in this country, was inaugurated May 15, 1918.

CHIEFS "SHOO" SQUAD ROUTS SHIEK-STRUCK MAIDENS

Lima, March 13.—Chief James Agua of the Wapakoneta police force has stepped out with an innovation in squads. The suicide squad, the sponge squad and others have been scrapping. Now he runs the "shoo" squad for shiek-struck maidens who cling to the bars of the jail and coo at the handsome prisoners.

Down in the Angioize county seat, made famous in quip and song by Al Joison, there are no burning sands which fair maidens tread to the tents of the spurred and glittering shiek of the desert. But there is a well paved street to the city jail, and there hangs the tale of the "shoo" squad.

From the neighboring oasis of Lima the sheiks spur their fleet flippers to the palm-shaded dance halls of Wapakoneta. They slake their shiekish thirst on nectar of the moon, dance a while, slake a while, and then land in jail.

This was the fate of a Lima lad of 19, who paid a fine of \$10 and costs Tuesday to Mayor Hay and to his patient leather charms the "shoo" squad is due.

As the saddened youth leaned his throbbing head against the grateful chill of the cell bars there came flocking to the jail a bevy of maidens who desired that they be admitted to his cell to express condolence.

"He's such a swell dancer, Chief, just like Valentino," they chorused to the amazed police boss. "Please let us in, Chief. He's got such wonderful eyes."

"Draw his eyes," howled the chief. "This ain't Chicago, where dumb women feed candy and tote flowers to murderers. This is Wapakoneta, where a plain drunk gets ten and costs. Scoot, scat, shoo! Dash his wonderful eyes."

And so the "shoo" squad came into being, and the chief is tuning up his trusty fly swatter for the next shiek's train of admirers.

Freighter With Cargo Of Sugar Lost; 10 Survivors Picked Up.

Norfolk, Va., March 13.—Maritime authorities today awaited word from the Norwegian steamer Cissy with ten survivors aboard from the Ward line freighter Santiago that floundered in the Atlantic storm with the probable loss of 25 men, 60 miles south of Cape Hatteras early yesterday.

The Cissy, under command of Captain Nels Stinson, saw no more boats or survivors in the vicinity. The waves were running mountain high. A general call sent by the naval base radio to all ships in the vicinity had met with no response early today.

Static conditions along the entire coast are good today, the naval base reports, and they are in touch with all points. The Cissy has only one radio operator aboard and it is thought that perhaps he has become exhausted after his long vigil.

BRITAIN DENIES ITALIAN CHARGE

Presence Of Fleet No Sign Of Opposition To The Latin Entente.

Rome, March 13.—British naval maneuvers now under way in the Mediterranean were interpreted by Italian newspapers today as a protest against the proposed Latin union headed by Italy and Spain.

The British decision to strengthen the British Mediterranean fleet and the present maneuvers caused a sensation in Italy. Newspapers are devoting columns of comment, reflecting the nervousness of the entire nation.

Newspapers point out that, as the maneuvers begin in Spanish waters at Gibraltar and will end in Italian waters at Malta, they must be accepted as a diplomatic hint that Great Britain is opposed to a Spanish-Italian naval entente.

London, March 13.—British admiralty and civil officials today denied the accusations of Italian newspapers that the British Mediterranean maneuvers constitute a protest against the proposed Latin union or against Italy's determination to strengthen her own navy, the maneuvers were described as routine.

It was stated semi-officially that Premier Ramsay MacDonald will take an early opportunity to proclaim England's friendship towards Italy.

FUNERAL HELD FOR BAYARD MERCHANT

Funeral service for the late George Nisson, aged 51 years, who died at his home in Bayard, Sunday morning was held Wednesday afternoon in the Methodist Episcopal church at Bayard, Rev. E. J. Travis, former pastor of the Bethesda Presbyterian church, officiating. Mr. Travis is now located at Lacomings, Md., and it was when he was pastor at Bethesda that Mr. Nisson identified himself with that congregation.

Mr. Nisson was born at Denmark and lived in East Liverpool when he was six years old and when his parents took up their residence there 55 years ago.

Sixteen years ago Mr. Nisson removed to Millport, where he opened a general store remaining there 11 years when he removed to Bayard and for the last five years conducted a similar enterprise.

Mr. Nisson is survived by his wife and one son, Howard, and the following sisters: Mrs. James McCullough of Bayard; Mrs. Mary Mushrush, Miss Tena Nisson, Mrs. David Stanley and Mrs. John Harrison, all of East Liverpool. One brother, Fred Nisson, resides in Millport.

ATTORNEY WILKIN HEADS OHIO BODY BACKING M'ADOO

Columbus, March 13.—Atty. W. D. Wilkin, Cleveland, today is the head of the organization of Ohio Democrats supporting William G. McAdoo for the presidential nomination.

Selection of Wilkin was made at a meeting here late Wednesday of McAdoo supporters who mapped out plans for waging an intensive fight in Ohio for delegates to the Democratic National convention at New York city next June. Delegates will be chosen at the April presidential primaries.

Hamilton G. Dewese, Columbus, was elected chairman of the committee on organization and John T. Adams, Columbus, chairman of the finance committee and treasurer of the organization. Chairmen of the various committees, together with other persons to be chosen by them, will constitute the executive committee, which will appoint the permanent secretary.

W. W. Durbin, Kenton, chairman of the Democratic state executive committee, refuted the charge, made by Judge David L. Rockwell, Ravenna, national campaign manager for McAdoo, that "the state (Democratic) organization has tried to 'hand pick' the delegates."

Durbin, also, denied Rockwell's allegation that the state Democratic organization tried to remove McAdoo delegates from the ballot to be voted on at the April Democratic primaries. Rockwell declared the withdrawal of many McAdoo candidates for delegates was "far from voluntary."

Wilkin asserted he had been "ordered" by the Cuyahoga county Democratic organization by McAdoo supporters and declared that Cox and the state organization always have striven to preserve the primary system and aided in amending the state constitution so as to make the primary system possible.

ALLIANCE WATER SURVEY ORDERED

Alliance, March 13.—Service Director F. D. Miller announced Tuesday that the services of George B. Cascoigne, Cleveland, has been retained by this city as consulting engineer to make a survey of the present condition of the waterworks and sewage disposal plants.

According to present indications, extensive improvements will be required at both these plants to meet the immediate and future needs of the city. The additions are expected to cost more than \$200,000.

Cascoigne is expected to begin his survey today.

Bandits Overpower Clerks, Take \$50,000 In Cash And Jewels

New York, March 13.—Seven armed men invaded the Security Loan office on the lower East Side, overpowered and bound four clerks, including one woman, and looted the pawn shop of \$50,000 in cash and jewelry. They escaped in an automobile.

The bandits brought rope to tie the clerks and when this ran short, tore down electric lights and used the light cord to finish the job.

Mellon Denounces Longworth Tax Bill; Will Create Deficit

Washington, March 13.—Denouncing many parts of the Longworth tax bill as "unwise and unscientific," and asserting that it makes "no material reduction in surtaxes" on big incomes, Secretary of the Treasury Mellon went before the senate finance committee today and declared that if the bill became law it would create a deficit in the treasury.

The loss of revenue under the bill, Mellon said, would be \$450,000,000 as against the estimated surplus for next year of \$395,000,000.
